

28th April 2010, Dubai, U.A.E**PRESS RELEASE****Esewedy Electric Strategic Partnership with 3W Networks**

3W Networks today announced that Esewedy Electric, a leading provider of complete integrated energy solutions, acquired a majority interest in the company. Esewedy Electric realizes the importance of Integrated Telecommunication Solutions and in a bid to increase its market penetration has partnered with 3W Networks.

This strategic partnership will help 3W Networks in realizing its long term vision of becoming the world's leading provider of communication, safety and security solutions and accelerate the company's growth into new markets and territories.

"This is an exciting milestone in our company's history and we look forward to scaling our growth in partnership with Esewedy Electric" said Walid Gamali, CEO of 3W Networks. "Esewedy Electric is a well known name in Middle East and Africa. Large scale global reach, access to resources, manpower and a large customer base, make it an ideal partner for 3W Networks. Esewedy Electric shares our commitment to our customers and our mission to provide advanced affordable solutions, engineered and supported locally. Our combined teams will create exciting growth opportunities for our customers, partners and our employees."

This partnership will open up new markets and generate new revenue opportunities for 3W Networks such as the ability to provide turnkey solutions including fibre optic cable laying and installation services.

3W Networks and Esewedy Electric will work towards integrating the two company's products and solutions to ensure a seamless transition, which will deliver immediate value for customers, partners and clients.

About 3W Networks: 3W Networks is a technology based Communications Contractor and Systems Integrator primarily involved in providing Integrated Communication Solutions to Oil & Gas, Power Utilities, Telecom Operators, Transport and Fiber Optic Infrastructure sectors.
