3W Networks Establishes Regional Engineering Centre of Excellence at Dubai Silicon Oasis

International Communications Integrator and Solutions Provider to Tap Niche Markets and New Clients from Dubai

Dubai-UAE: 25th July, 2010 - Dubai Silicon Oasis Authority (DSOA) today announced 3W Networks, one of the regions premier systems integrator specializing in providing Turnkey Communication, Safety and Security solutions to the oil and gas, power utilities, telecom operators, transport and fibre optic infrastructure sectors, will establish its Regional Engineering Centre of Excellence within the integrated free zone technology park.

3W Networks operations at DSO will combine High Value Systems Design and Engineering, 24/7 Technical Assistance and Product Assembly. The 1350-sq metre office premises at DSO will host product specialists, engineers and technicians to provide customized solutions that meet the highest international standards.

Shahla Ahmed Abdul Razak, Deputy CEO - Dubai Silicon Oasis Authority, said: "We are pleased to welcome 3W Networks who chose Dubai Silicon Oasis as their preferred location to carry out their operations. DSO is considered an attractive location by many multinational companies in the field of technology. Our excellent infrastructure and facilities which is totally focused on providing top quality services to clients, is no doubt one of our major competitive advantages."

Walid Gamali, CEO, 3W Networks, said: "Our strategic choice to set up offices at Dubai Silicon Oasis is an essential part of our regional expansion plan and aligns with our mission to provide advanced, affordable solutions that are engineered and supported locally. Our new premises will have state of the art systems integration facilities, equipped to stage full scale integrated factory acceptance tests of various equipments prior to installation at the project site.

"The UAE and the region present numerous business opportunities and we aim to make sure that our operational infrastructure meets our future growth objectives. Our expert staff based at DSO will continue to offer timely services to our regional clients in addition to providing seamless technical support services to our various offices across the Middle East and Africa," Gamali added.

3W Networks offers clients a comprehensive range of turnkey communication solutions to suit any applications involving wireline and wireless transmission, voice and data, safety, security and outside plant infrastructure. An ISO9001 certified company; 3W Networks has a team of energetic and dedicated professionals with broad-based experience focusing on providing cost effective, innovative and reliable solutions. 3W Networks has offices in Abu Dhabi, Doha, Muscat, Dhahran, Cairo, Singapore, Seoul and Melbourne. The company's solutions are deployed in the most prestigious names in the region.

Dubai Silicon Oasis is a wholly-owned entity of the Government of Dubai and operates as a free zone technology park for the semiconductor, microelectronic and other high technology-based companies looking to set up their regional headquarters and R&D facilities in the Middle East and Africa region.
