PRESS RELEASE
(Internal Use Only)

3W Networks selected as Telecoms & Systems Integrator for Qatar Petroleum

Dodsal Engineering and Construction PTE Limited, a US\$2 billion Dubai-based diversified multinational group which operates in the areas of Engineering and Construction, Infrastructure Development and Management has awarded the Telecommunications Package to 3W Networks for the Ras Laffan Common Cooling Sea Water Phase II Project. The end user is Qatar Petroleum.

The scope of work for the Telecoms and Systems Integrator includes extensive Survey, Detailed Design, Engineering, Procurement, System Integration, Factory Acceptance Testing, Installation and Commissioning of the Outside Plant Fiber and Copper Network for critical networks including F&G, SCADA, PMS, DCS and Telecom/IT, Structured Cabling for Voice and Data, PAGA Safety System, Optical transmission network and Other Telecom Works including Hotline System, Analog and Digital Telephones.

The project involves the design and implementation of over 150Kms of Fiber Optic and Copper Cables in the Ras Laffan Industrial City through new and existing ducts. The PAGA System from Gaitronics contains over 300 Speakers consisting of Indoor, Weatherproof and Explosion Proof models. The extensive and complex detailed design requirements of the project and the subsequent implementation includes upgrades to existing systems and network reconfigurations to be executed over a three year period.

Notes:

About Dodsal Engineering and Construction PTE Limited

Dodsal Group is a Dubai-based diversified multinational group which operates in the areas of Engineering and Construction, Infrastructure Development and Management, Exploration of Hydrocarbons and Mining of Minerals and Metals for the energy sector, Trading Activities and Quick Service Restaurants. With a business volume of over US\$2 billion, Dodsal is one of the leading energy and infrastructure development companies in the world and soon to be an oil and gas, minerals and metals producer.

About Qatar Petroleum

Qatar Petroleum was established in 1974 as a national corporation completely owned by the State of Qatar. Qatar Petroleum is responsible for all oil and gas industry processes in Qatar and abroad, including exploration and drilling for oil, natural gas and other hydrocarbon substances, production, refining, transport and storage of the aforementioned substances and any of their derivatives and by-products, as well as trading in, distribution, sale and export of these substances.
